LOOKING FORWARD

Habinteg's Senior Management Team is committed to the delivery of our strategic aims through forward planning across all service areas.

Development

Over the next five years we aim to build upon our success with an ambitious and sustainable approach to our development programme, targeting areas of demonstrable housing need to ensure that the Association fulfils its growth ambitions.

We will continue to promote and pilot innovative design solutions, continually improving our design and construction approach to ensure that our projects provide high quality housing in line with our corporate Vision. Integrating into, and working with, all our teams and operational systems, we will ensure long term viability, high levels of occupancy and tenant satisfaction.

We will work collaboratively with stakeholders to explore mixed tenure and mixed use development opportunities. We will create developments which offer a sense of place and community, and provide opportunities for residents to live and work within

a vibrant and integrated environment, helping to fulfil the Vision of Homes, Lives, Communities.

Homes and Communities

Over the past 40 years Habinteg has gone from strength to strength in providing accommodation which enables and supports people with a wide range of needs. Our culture of valuing people and supporting communities continues, as reflected in our Values, in the way we deliver our services. Homes are the central feature of our communities. They affect health and wellbeing, employment options, ability to live independent lives and opportunities for happiness.

Over the next five years the Homes and Communities Directorate will continue to work in partnership across all our teams, strengthening relationships in order to deliver excellent services to our customers and communities. Our focus throughout the period of this planning cycle will be to help create stronger communities where people are proud to live. Building on our Community Involvement Strategy we will be working more closely with our customers,

listening to their views and learning how we can better meet their needs. We are continuing to develop our tenant involvement programme and increasing the opportunities for residents to be involved in influencing and contributing to our decision making. The Association's Homes and Communities Team is clear about the challenges facing some of our tenants particularly with the welfare reform changes. We are committed to working with them to provide sustainable, affordable homes for them and their families now and in the future.

Asset Management

Habinteg's Asset Management Team will, over the next five years, seek to embark on an ambitious change management programme which will ensure we are operationally flexible, safety focused and capable of meeting future service requirements and challenges. New mobile technological advances will increase our capacity to respond effectively to the maintenance requirements of our customers and help promote a value for money ethos.

A review of the department will embed a culture of customer service excellence, taking into account our customer expectations and how we will best meet them going forward. We recognise that successful change management requires creating alignment between our strategy, leadership and culture. The need to promote efficiencies and effectiveness in our operations will require us to consider alternative service delivery models across the organisation.

We will plan and implement change that supports the development of our staff and promotes a culture of learning, career development and the enhancement of leadership and management skills.
