Home Safety

Criminals watch out for houses they think are empty and unprotected. Make their lives harder by doing the following:

- If you can, fit burglar alarms at your property.
- Switch lights or a radio on when you go out. You can buy timer devices to do this automatically.
- Even if you're only going out for a few minutes, check that all doors and windows are properly closed and make sure side and back gates are secure.
- Don't leave garden tools outside, keep ladders out of sight and ensure sheds, garages and outbuildings are locked.
- Even when you're at home, try not to leave accessible windows open at night.
- If you're going away on holiday, ask a neighbour to keep an eye on your home, take in any milk and deliveries.
- Don't alert burglars by leaving any packaging outside – put it all in your recycling box, out of sight.
- Avoid sharing on social media, news of being away from home.
- Be a good neighbour. Be vigilant and on the lookout for suspicious activity in your community. If you're in any doubt, contact Crimestoppers using the telephone number below.
